

Banner Barriers

Banner barriers are a perfect way to define your space, segregate areas and provide customers with privacy and protection.

We have the in-house capabilities to manufacture banner barriers to bespoke sizes and styles with engraved branding. A variety of high quality materials are available to suit your space and can be customised to your specifications.

TRANSFORMING YOUR
OUTDOOR SPACE

• Choose your style

Heavy-Duty Banner Barriers

Our heavy-duty banner barrier system is a popular choice due to their durability and convenience. Like all our banner barriers, customisation from materials to branding and colour schemes is offered.

Bespoke Banner Barriers

Essentially, most of our banner barriers are bespoke. We design and manufacture bespoke banners from a wide selection of materials including steel, scaffold, timber, acrylic and glass. We customise every component to make unique and inspiring outdoor areas. Contact us to find out how we can create your desired look.

Glass Balustrades

Toughened glass balustrades provide effective shelter from the environmental elements. They are modern and can be customised to meet your needs including branding and the type of finish.

Planters

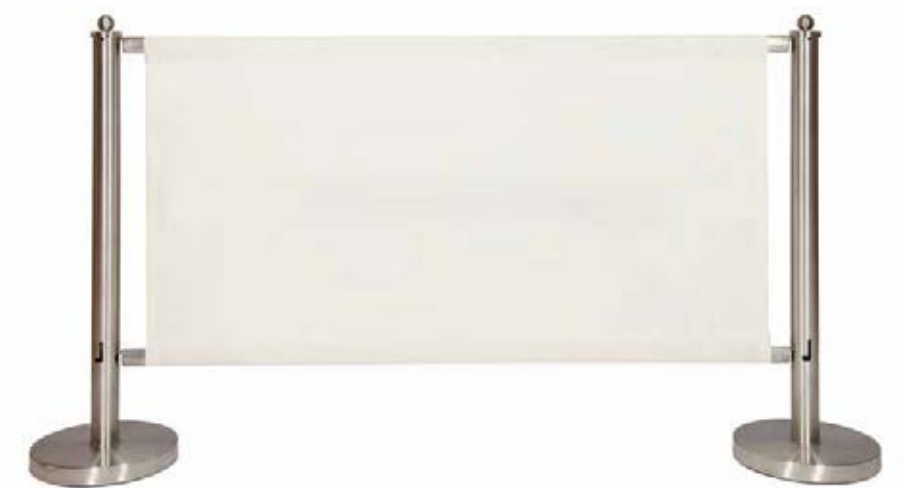

Revitalise your outdoor space with our wide selection of planters. This bespoke solution can be made using a variety of materials, dimensions and colours for your unique area. With a choice of real or artificial plants, these planters are low maintenance and eye-catching.

Heavy Duty Banner Barriers

Banner barriers are a multifunctional way of segregating areas and showcasing your brand. Commercial grade stainless steel posts and rods allow the system to be used in all weathers. Canvas, mesh or vinyl banners can be printed with your logo, message or slogan. Rope barriers or timber-clad posts create an alternative look.

- 21kg posts provide a secure and stable system
- Post and rod can be powder coated to RAL colours upon request
- Vinyl, PVC mesh or acrylic canvas options
- All fabric options can be branded with logos or graphics
- Huge choice of standard banner colours across all fabrics and materials
- Grade 304 stainless steel post and slot in rail system with tamperproof design
- Portable for temporary outside areas
- Rope barrier system in 6 colours

Canvas Banner

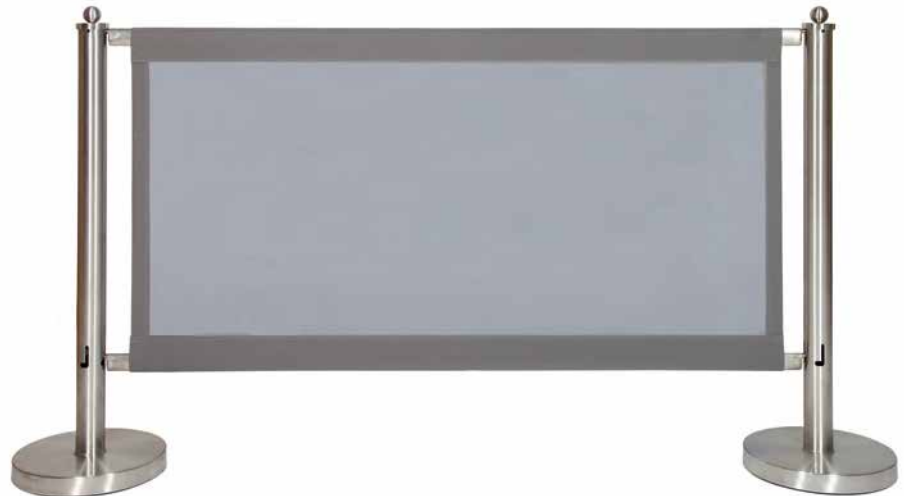

- Can be branded or printed single or double sided
- Highest quality banner using premium Dickson fabrics
- 310g/m² acrylic canvas
- Water, mould and tear resistant
- Colour stable with high lightfastness

Banner Sizes

W 1160 x H 780mm

W 1460 x H 780mm

W 1830 x H 780mm

Mesh Banner

- More suitable for windy conditions as the mesh allows air to pass through
- 270g/m² PVC mesh banner with a 130g/m² synthetic backing liner
- Acrylic canvas border, hemmed/seamed to stop fraying
- Water and tear resistant
- Logo branding and personalisation, suitable for single sided printing

Banner Sizes

W 1160 x H 780mm

W 1460 x H 780mm

W 1830 x H 780mm

Vinyl Banner

- Cost-effective banner barrier option
- Easy to wipe clean
- Durable, tear resistant PVC material
- Logo branding and personalisation, suitable for single or double sided printing

Banner Sizes

W 1160 x H 780mm

W 1460 x H 780mm

W 1830 x H 780mm

Fret Banner

- Distinctive fret cut pattern and style
- Top and bottom rails welded to fret cut panel to fit heavy duty banner posts
- Available in a variety of powder coated colours or to any RAL colour of your choice
- Manufactured from powder-coated steel

Banner Sizes

W 1460 x H 780mm

W 1800 x H 780mm

- Available in black

Bespoke Banner Barriers

Using our factory facilities and in-house design skills, we can manufacture banner barriers from materials such as galvanised steel, reclaimed scaffold boards, timber panels, acrylic, laminated safety glass and many more besides.

With our branding service, we can CNC engrave logos or patterns depending on the material or if a more permanent result is required. Timber can be stained or painted, with branding via adhesive vinyl, digital print or spray finish.

We can combine banner barriers with standard or bespoke planters as part of a complete outdoor area management service.

Glass Balustrades

For alfresco spaces that require a sleek and modern barrier system with a premium feel, glass balustrades fit the bill. Made from toughened safety glass balustrade, they provide effective enclosure and shelter from wind and driving rain, with the ability to apply graphics or choose various glass finishes as required to add additional privacy and branding.

Glass balustrades can be made to bespoke sizes and can be installed in a variety of locations and ground surfaces, including composite or timber decking, metal, brick or concrete. Systems are available with or without a handrail

- Made-to-measure system to suit the space
- Grade 316 stainless steel posts and fixings
- 10mm/12mm toughened glass or 11.5mm toughened laminated safety glass
- Clear, frosted or tinted glass
- Apply branding or logos with vinyl graphics
- Round posts with optional top handrails sections
- In-ground installation
- Use standalone or as part of an integrated scheme with giant umbrellas or pergolas

Planters

Revitalise your outdoor space with our wide selection of planters. This bespoke solution can be made using a variety of materials, dimensions and colours for your unique area. With a choice of real or artificial plants, these planters are low maintenance and eye-catching.

- Bespoke shapes, sizes and colours to suit your site
- Made from a variety of materials such as timber, reclaimed scaffold boards, poly resin, high pressure laminate, fibre glass and more
- Apply your logo or slogan using a variety of techniques
- Foot options available for sloping and uneven surfaces for levelling. Options include castors, adjustable feet, timber block feet or bolt down on site

To find out more see pages 316 to 325 in our Planters, Pots & Plants section.

Host Stations

Exclusively designed and manufactured in our UK factory, Host Stations make the lives of waiting staff that little bit easier and when placed at the entrance to your trading area, provide an ideal opportunity to showcase your brand.

Host Stations can be made entirely to your specification from an extensive range of materials. Many colours, paint and stain finishes are available as well as personalised branding and engraving.

They can be mounted on castors for ease of portability, or adjustable feet for semi-permanent placement on uneven ground. We can build shelves and storage space for items such as menus or condiment holders, and can include single or double doors.

Host Stations

Planters, Pots & Plants

Create the ambient effect of choice with our extensive array of planters, pots and plants. Plants and planters offer attractive aesthetics while providing natural privacy and area management solutions. We have a strong understanding of what is required to craft a stunning alfresco environment, matching décor and themes if needed.
